Photo Documentation

Required Inspection Photographs

Owner shall attach timestamped photographs taken at the time of inspection, including, at a minimum:

1. All four exterior sides of the Vehicle
2. All four exterior corners of the Vehicle
3. Interior front seating area
4. Interior rear seating area
5. Trunk or cargo area
6. Dashboard
7. Odometer reading
8. Fuel gauge

9. All keys and key fobs provided with the Vehicle
10. Any existing damage, defect, stain, odor source, mechanical issue, warning light, or other condition identified during the inspection

Incorporation of Photographs

All photographs associated with this inspection are incorporated into and made part of this Vehicle Condition Report and shall be deemed part of the official inspection record.

Reliance Upon Photographs

The parties acknowledge and agree that the photographs accurately depict the Vehicle's condition at the time of inspection and may be relied upon by Owner in determining the existence, nature, extent, location, and severity of any damage, defect, loss, missing item, excessive wear, contamination, cleanliness issue, or other condition occurring during the rental period.

Fuel Type Verification

Fuel Level (circle/select): E 1/4 1/2 3/4 F

Fuel Type (circle/select): Regular Midgrade Premium

Additional Notes

Acknowledgment

Both parties acknowledge and agree that this Vehicle Condition Report, together with the associated timestamped photographs, accurately reflects the condition of the Vehicle at the time of inspection. Renter acknowledges that any damage, condition, defect, scratch, dent, crack, stain, missing item, mechanical issue, or other condition not specifically identified in this Report or clearly visible in the associated inspection photographs shall be presumed not to have existed at the time of delivery. Renter further acknowledges that any damage first identified during the post-rental inspection may be charged to Renter in accordance with the Master Vehicle Rental Agreement, subject to the terms thereof.
